## A NOTE FROM SKUNKAPE

Thanks for reading this *cum rag* of a zine. We've been working on this for over **2** years at this point and we decided to finally actually get this shit released. We have many many ideas about the possible future of **THUNDER 49**. Who knows what will come to fruition and what will die. I don't even know if we are sticking with that title or not. We would love to have some feedback. Feel free to send me original art and literature as well. You can email me at **skunkape49@gmail.com**. I am thinking about setting up an email subscription and possibly even a snail mail club thing. We also have an unrelated forums at **<http://skunkinggrounds.us>**, but I don't think I'm going to renew the domain at the end of the month so...

# SPRECHERS by Average Joel

SO I walk into these new local grocery shoppe called [REDACTED] and buy the regular list of groceries y'know? (All the Hot Pockets money can buy) But then I see something that catches my eye: a four pack of Sprecher's brand Local Root beer. I recognized the name because my boy Skunk Ape (see foreword) was telling me about it. Anyway I pick up the four pack throw it in the cart and scam. It was weird because the parking lot had like 3 police cruisers in it. No idea why. It wasn't even a rough neighborhood. Anyway I get home and I'm about to munch into some dinner when I take a swig of some of the good ole Sprecher's brand root beer. I'm no root beer aficionado y'know? But when it comes to knowing what tastes good to the average Joel then I'm your man. And let me tell ya this root beer was not as good as I thought it'd be. It just tasted kind of weird with like a woody aftertaste. Overall not something I'd buy again. But then I take a closer look at the bottle and it turns out it wasn't a local root beer it was a lo-cal root beer. So this was like some sorta diet shit-soda with none calories. Which made my first opinions of the soda feel validated. Before I knew it was some sort of diet soda I was kind of holding back my full opinion on it. I would've wrote that Sprechers "just wasn't for me." but now? Fuck Sprecher's lo-cal soda. Stick to the good stuff because people who are on diets should not be drinking soda.

## I REPEAT IF YOU ARE ON A DIET WHY ARE YOU DRINKING SODA FUCKO.

**DEAR SPRECHER'S** and any other soda maker: there is a reason people on a diet are an untapped soda market and its because those people shouldn't be drinking soda. If you look up the exact definition of soda in the dictionary it's: (and i quote) "Tasty shit water that will eventually kill you." So please next time I just blindly toss a four pack of soda like some kind of dumb butthead please don't make me take a sip of it and realize that it tastes like some weird soap. **DIET SODA DROOLS!!!**

# BROTHER STAIR

by S. L. Cunt

SO this guy a pretty cool smart sounding dude I heard on the radio. I was patrolling the short wave frequencies on my world band radio (mostly looking for isil chatter and other bomb heads, but I'll save those rat fucks for another article) when I heard the raspy old voice of the Last Day Prophet of G-d. He was talking about nuclear fallout and basically how the shitty the apocalypse is gunna be when G-d finally gets pissed off at us enough. Pretty neat! And they arent just recording of this guys babbling on he's actually babbling live on the air for hours a day! Incredible! You can listen to him if you have a short wave radio handy (**frequency 5850**) or you can just call em up!

**(712) 832-2768**

**SO COOL!!!**

**THE** other day I was noodling around on my shortwave radio, looking for radio signals. Ya know, just an average sunday night activity. I pick up a signal that's religious in nature

# ISIS

by Slunk

**FUCKING SLIMEBALLS.** My goat has been GOT by these ISIS boys. I hate em! I see what they do in the world and I just want to yell at these little AK-47 waving wimps and say **"CUT IT OUT"**! Pissing me off. I work hard every day writing these shitty articles and not getting paid dick just so that these bullies can go around hurting people around the globe? Come on. Hopefully Skunk Ape has stopped reading by now so I can share something that I really care about. 2015's "The Tribe" directed by Miroslav Slaboshpitsky. "The Tribe" is a Ukrainian film that takes place in a boarding school for the deaf, as it is extremely new I must warn you all of spoilers. This film's gimmick is that there are no subtitles. Nothing. Even if you know American Sign Language you're still going to be lost as the students are communicating in Ukrainian sign language. The film isn't an easy watch but it's helped along by stunning camerawork, wonderful performances, and an easy enough storyline to follow.

In this film we follow our main character Sergey as he settles into his new school. He is accepted into the so called tribe, a gang of students who steal from train goers, bully mentally handicapped students, and even pimp out their (willing) classmates. The main focus of the story is of the two young prostitutes who the tribe pimps out, they take the girls to a truck stop in the area and let truckers pay to go for it with these young girls. Although we hear no dialogue from anyone in the film "The Tribe" cannot be considered a silent film because we still can hear the sounds of the world around these deaf kids, we can hear their exaggerated breathing, we hear their hands, we hear them make love, and one of the most revolting and spine chilling moments in the film (an underground abortion) takes full advantage of the screams of one of the prostitutes. "The Tribe" is a film that pushes your eyes away from the screen with horrific and drawn out acts, and pulls you back in with beautiful visuals and your need to collect visual information.

**I GIVE "THE TRIBE" A 3.5 OUT OF 5.  
GO SEE IT IF YOU CAN.**

# CRAZY NEW TWEEN FAD YOU WON'T BELIEVE YOUR EYES!!!

by Dingus

**HAVE** your kiddies been going through your cupboards a lot lately? Making up excuses to get medicine when they're clearly not sick? Well you better put an end to their **BULLSHIT** and keep them out, because this latest tween trend is nothing to LOL (Laugh Out Loud) at.

They call it "**BUTT-CREAMING.**" By applying an excessive amount of anti-itching cream to their disgusting anal cavities, they are essentially on a trip equivalent to smoking/eating/buttchugging a pound of marijuana. Some readers may be asking, "How is that even possible? Weed doesn't work like that!" Shut the fuck up. I talked to a scientist about it! Are you saying you are smarter than a scientist? I don't think your fancy liberal arts degree makes you an expert on everything, Sharon!

We interviewed a local teen, whose identity remains anonymous at their request, about their butt-creaming habits. "Yeah man," says the teen, "I just picked up the tube one day—not because I have burning, itchy cysts in my rectum or anything—but because I just wanted to get turned a.f. That shit is tight. Fucks you up kind of like when you actually smoke those sugar cigarettes that you can get at gas stations for like 35 cents."

The unnamed teen goes on to mention the adverse side-effects of butt-creaming. "Whenever you're creamed as fuck, you're just, like, a statue. The world around you doesn't mean a thing, and you become one with the earth. It's basically like your entire body becomes concrete or molasses or snail slime or something, and you're just standing there like a fucking rock in the wind, man. Pretty heavy shit." It has been proven by our scientific research team, lead by Dr. Kuntz, PhD., that excessive butt-creaming can lead to a semi-paralyzed state, much like you would experience with sleep paralysis.

DR. PHILLIP J. KUNTZ, PHD

"The anti-itch cream contains so many potent medical chemicals, such as mononuclioxide, nisonultimade, and aspartame, that the body doesn't know how to process them all," explains Kuntz. "The rectum is especially sensitive to these chemicals, so once they are absorbed into the soft, fleshy anal linings, they are immediately transferred to the bloodstream. This is why we must keep any and all 'butt-creaming' substances out of the hands of these rabble-rousers."

Kuntz explains simple, yet effective methods of keeping your tween out of trouble. "Normally I would just suggest disposing of the kids themselves, as to nip the problem in the bud, so to speak, but apparently that is frowned upon. My medical expertise tells me that the only other solution is to lock up your child in a barred cage in the basement. Food, water, and sunlight are all problematic for butt-creamers, as they increase the rate at which the body absorb the chemicals, so I advise against feeding them or keeping lights on. No matter how much they scream, don't give in. They just want to get high."

Next time your child mentions an itch to bitch, or goes into your cabinets for medicine, just remember: they are drug-obsessed monsters and deserve no sympathy. Only you, and a two-ton steel cage, can prevent them from becoming a hindrance to society.

# THINGS WOMEN IN SAUDI ARABIA CAN'T OR WON'T DO

by Average Joel

- ☞ They can't take a sweet summer road trip with your boy Chuck
- ☞ Sit on the porch with your buds in the summer and just chill all day
- ☞ Find your girl Suzie cheating on you with Chuck
- ☞ Beat up Chuck till he poops
- ☞ Reminisce about summers past
- ☞ They can't skate
- ☞ Can't celebrate Christmas
- ☞ Can't watch Curb Your Enthusiasm (made by Jew)
- ☞ Can't watch Seinfeld (also made by same Jew)
- ☞ Can't watch most Hollywood stuff (made by multiple Jews)
- ☞ Can't chug a Pabst
- ☞ Can't ride a bike
- ☞ Can't suck on a naked zombie
- ☞ Can't watch cool Youtube videos of a kid running over his brother in a toy car.
- ☞ Can't watch cool Youtube videos of a dad running over his kid in a real car (THANKS HOT DAIRY THAT WAS AWFUL)
- ☞ Can't soak in the rays on a French beach

I remember when Aamina Hajjar and I went bowling that sweet summer night. I kissed her and I felt her lips pressed against mine, separated by a thin layer of cloth. I asked her to show me her hair and she finally did. When her father found out that she had shown her hair to me he brought her back to Saudi and cut her head off.

# SWEET-ASS SALAD

by Slunk

**EVER** think about sipping on something sweet like a lemonade or some bovril? Boy oh boy do I have a great little salad recipe for you! It goes great with a sweet lil drink.

## STEP 1

Take your greens (lettuce, spinach, kale, whatever you want) and go on and wipe your ass with them, go ahead no one is looking. Make sure you get each leaf deep in there, and wipe from back to front (anus to genitals).

## STEP 2

Add whatever else you want.

## STEP 3

Top with 3 cups of sugar, 4 wasabi peas, and a sliced beet.

## STEP 4

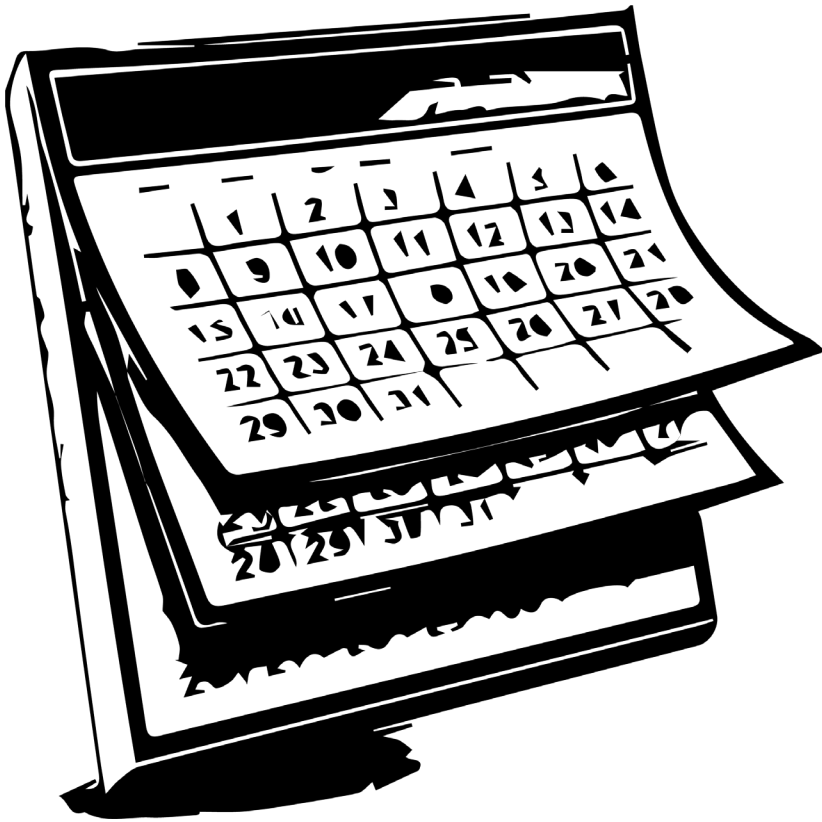

Serve it up, DEEEEEELISH!

This salad is perfect for you. Look at yourself, go ahead and look at yourself right this second. Pull out a mirror, go to the mirror, or pull out that stupid fucking selfie toy you keep on your hip all day. Look at that hopeless human being and think to yourself that this person is not above eating shit, this person would **LOVE** to eat some shit, this person would **HAPPILY SHOVEL SHIT INTO HIS/HER/XER/MER/FER/WHER/THEIR MOUTH**. Ha-ha funny joke article, this guy is so **ZANEY** and funny but I want you to honestly go ahead and think this to yourself. "Am I above eating shit?" and the answer is no, if you are reading this article the answer is and always will be no.

# 2015: YEAR IN REVIEW

by Average Joel

Pretty sure these are supposed to be made by the editor or you know someone else pretty high up but seeing as no one else has done it...

2015 was pretty alright.  
It was no 2006 but it was alright.

# 2015: YEAR IN REVIEW

by Dingus

**2016** was LITERALLY (not figuratively, literally) the worst year in existence. At no point in recorded human history has a scourge to humanity as bad as 2016 graced us with its presence. I hated 2016, and 2016 hated me. Let's go over the pros and cons of this wretched year.

## cons

- ☹ Donald "Literally Worse Than Hitler" Trump beat out Hillary "Not Actually a Criminal" Clinton because of SEXIST MEN
- ☹ Some celebrities I definitely cared about died
- ☹ Zika virus? I don't know what that is but it's bad
- ☹ The new MacBooks look hella gay

## PROS

- ☺ BERNIE STILL HAS A CHANCE!

# DRUGS

poetry by LNF

As a kid

Fightin was a drug to me  
Real fucked with dopamine

*So everyone an enemy*

Punch niggas out, turn teeth to a dusty peace

Talking shit was never rewarded with a free flee  
Beat down til you asleep

Or I end up RIP'd

Was the only way to calm me down

Without I would just fuckin drown

In voices sayin you ain't shit you'll never make it in this town

And live unsuccessful til you underground

*But fuck it,* Hands chest level, only source of protect

Leave next kid bloody, need a cotex

Any other shit being flung at me, need to focus

Bloody knuckles for these fucks, no emotion

Talk more, punches get more potent

The temper got a mind of it's own

Might get outta control

But there's no other way to slow its roll

*It's a slippery slope*

*So don't climb it*

Cause ragin season a different climate

Too intense to even make sense of it, so move or bleed more than a hymen

Momma every week picking me by my ear

Hearing my father's reaction would bring me to fear

Every day always brought to tears

Black kid like me had look tough so I always peered to the mirror

And thought why am I so mad

Why are they so happy

All I wanted was attention why does everyone get the clappin

As a kid

I really didn't give a shit  
And violent when I was gettin pissed

Cause no one ever gave a shit

So now as an adult

All I do is drink and smoke mid

*So that kid don't exist*
